

Department of Hematology & Bone Marrow Transplantation

Rambam Health Care Campus, Technion- Israel Institute of Technology
Haifa, Israel

Rambam Health Care Campus, the major teaching hospital for the Technion- Israel Institute of Technology's Faculty of Medicine, is seeking a dynamic, highly qualified candidate as Director of Hematology & Bone Marrow Transplantation. The successful candidate should have a strong clinical background in Hematology, a well-established international research reputation, and excellent qualifications in medical education, with a proven track record of success in academic leadership. The successful candidate should have an academic background which would qualify him/her for a senior academic appointment at the Technion.

An attractive recruitment package will be offered to enable the successful candidate to implement the goals of continuing in the outstanding tradition of excellence at Rambam's Department of Hematology, and in conjunction with the strategic plan for major campus re-development.

Potential applicants should send a cover letter and Curriculum Vitae in confidence to:

Prof. Karl Skorecki,
Chair, Hematology & Bone Marrow Transplantation Search Committee
Director of Medical & Research Development
