

## **ASSOCIATE CLINICAL HAEMATOLOGIST**

### **BORDER MEDICAL ONCOLOGY and HAEMATOLOGY**

#### **ALBURY WODONGA**

Border Medical Oncology and Haematology (BMO) is a busy medical oncology & haematology practice based in Albury-Wodonga. We are seeking a second Haematologist to join our practice on a full time basis.

The practice sees both public and private patients across a broad range of tumour types. We service a regional population of approximately 250,000 people and provide outreach clinics to Wangaratta and Deniliquin. We are based in the Albury Wodonga Regional Cancer and Wellness Centre, which includes state of the art day ward, inpatient wards and radiotherapy department. The centre is located on the Albury campus of Albury Wodonga Health.

We have an established, award winning clinical research department allowing our patients access to a broad range of clinical trials. Multidisciplinary clinics are established for common malignancies as well as teleconferencing and mentoring links with metropolitan centres for the co-management of less common tumours.

The successful applicant will have the opportunity to become an associate of the Border Medical Oncology and Haematology practice and a Visiting Medical Officer at the Border Cancer Hospital and Albury Wodonga Health. Opportunities exist for a conjoint appointment with the University of NSW rural medical school

#### **Requirements**

Essential:

- FRACP (Haematology) Completion of advanced training in Haematology.
- Specialist registration in adult medicine (Physician) and Haematology with the Australian Health Practitioner Registration Authority (AHPRA)
- Demonstrated capacity in the efficient and effective day-to-day management of haematology patients and a commitment to best

practice care, including a commitment to clinical research.

- Demonstrated excellence in written and verbal communication skills.
- Commitment to a multidisciplinary approach to patient management.

Enough about work. Albury-Wodonga provides an enviable lifestyle in one of the most beautiful regions of Australia. (The secret seems to be out as it is one of the fastest growing cities in Australia. There is an abundance of space, clean air, mountains, ski resorts, rivers, wineries, restaurants, national parks and numerous other recreational opportunities. The city has a diverse economy and affordable housing. Read more about how we benchmark on this link. <https://smart-cities.dashboard.gov.au/all-cities/overview>

The region boasts a number of excellent secondary and tertiary educational facilities. An efficient regional airport provides easy access to Sydney and Melbourne allowing easy face to face interaction with city colleagues and participation in state and national committees.
