

HSANZ Announce

For HSANZ Victorian members and their colleagues

Important Announcement

Interim arrangements for clinical support at

**Victorian Cancer Cytogenetics Service,
St Vincent's Hospital Melbourne**

As the longstanding provider of the Victorian Cancer Cytogenetics Service, St Vincent's Hospital Melbourne is committed to continuing to provide this well-regarded service and maintain the quality of the service following the resignation of the Medical Director.

We would like to inform you of the interim arrangements for clinical support while we recruit to the ongoing position.

The following arrangements will be in place from **1 March 2019**.

A clinical consultant with expertise in clinical and laboratory haematology is being engaged to provide clinical support and medical liaison to referrers.

Service Operation Hours

There is no change to the service hours of operation and afterhours arrangement will continue for management of clinically urgent samples.

For enquiries please contact:

Fran O'Malley, Principal Scientist,
Victorian Cancer Cytogenetics Service,
Telephone: +61 3 9231 4151

After hours

For management of clinically urgent samples after hours:

Telephone +61 3 9231 2211 (St Vincent's switch) and ask to be connected to Fran O'Malley's mobile phone.
