Lay summary of publication

In lay-terms briefly summarise the significance of the nominee's publication and how it has advanced our understanding of blood cancer and/or impacted blood cancer care.

Instructions for supporting statements

Supporting statements should outline why the nominee is deserving of the award and respond to selection criteria 2 research impact and innovation (refer accompanying nomination guidelines). For example, this statement may highlight the nominee's:

1. Contribution to the advancement of blood cancer research in Australia and internationally
2. Potential of published research to innovate patient care and/or health service improvement

These statements must be on company letterhead, signed and dated. Maximum 2 A4 page each.
